COMPAGNIE DES ALPES enters the CAC MID 100 and FAS – IAS indexes

On December 18, 2006, Compagnie des Alpes, listed in segment B of the Euronext Paris Eurolist, enters the CAC Mid 100 index. The CAC Mid 100 comprises the 100 leading capitalizations after the 60 companies included in the CAC 40 and CAC Next20 indexes. The CAC Mid100 is thus part of the SBF 250 index.

CDA's inclusion in these indexes underscores the growth in the Group's capitalization and the increased absolute value of outstanding float. This is due in large part to the capital increase successfully carried out in July 2006.

This announcement follows CDA's inclusion in the IAS – FAS index, which is made up of SBF 250 companies in which employees hold significant stakes, i.e., at least 3% of capital held by more than one quarter of the company's employees. To date, the IAS - FAS index comprises 38 shares.

The inclusion of Compagnie des Alpes in these two indexes demonstrates the company's industrial and financial dynamism and springs from a policy favorable to employee shareholding, enhancing the company's share value.

Compagnie des Alpes is a major player in the field of leisure production in Europe. The company operates 35 leisure sites including 14 leading ski areas located in the Alps (including Tignes, Les Arcs, La Plagne, les Menuires, and Méribel) and 21 leisure parks (including Parc Astérix, Grévin, Walibi, and many more), in seven European countries: France, Italy, Switzerland, the Netherlands, Belgium, Germany and the UK. For the last fiscal year, ending September 30, 2006, its consolidated sales were €455.5 million.
